

Moscow Patriarchy
Patriarch Culture-Council

Dear mr. Latt,

I want to thank you for the letter addressed to the holy Patriarch Kirill of Moscow and all Russia where you request Him to under assistance with sending back the the breastplate of the first President of the Estonian Republic and the photoalbum „Retracing Konstantin Pats' Path" where events are described in connection with search of place for burying the first Estonian President and perpetuating the memory of Him in Russia.

I am obliged to tell You that the question of returning the breastplate of the first Estonian President kept in the Armory of the Moscow Kremlin does not cover the commission's terms of reference of Moscows Patriarchy and its institutions.

To solve the problem I recommend You to find mutual understanding with the Ministry of Culture of the Russian Federation.

With all my heart I wish you good health, long life and much happiness!

Yours respectfully, A.G. Parmenov Chairman of the Program Department of the Patriarch Culture Council
