

Dear delegates of the council of Burashevo municipality and the leaders of the municipality,

Dear sir Sergei Rozkov,

Dear sir Sergei Rumjantsev,

Good friends,

30 years will be passed in October, 2018 since our first encounter took place in Tver and Burashevo for the purpose to enlighten the destiny of our First President, Konstantin Päts.

It is our pleasure to remember that at the very first steps of our meeting we experienced warm, friendly, benevolent and helpful reception from the local municipality and local residents. In the course of time the participants of our joint ventures became more and more.

The memories of our mutual co-operations are in our hearts and mind and also in the present album thinking about the people who have given their part to compose the album.

Our greatest gratitude to those people !

We are glad to forward this album in memory to the local municipality of Burashevo.

We look forward to the next get-togethers !

We wish happiness, well-being and peace of mind to everybody !

Yours sincerely,

Niina Peerna, Henn Latt and Adik Sepp
